Skip Jones: Wisconsin Folksinger, Educator, and Social Activist  
And Many More . . .

### LAND AND WATER RIGHTS, NOT MINE RIGHTS

We all share and depend on clean land, air and water for our survival and must work together to protect the health of our ecosystems and communities. Citizens may lack the monetary and expert resources of a mining corporation but well-organized, united citizens are a proven, effective grassroots tactic with a glorious history. Join us for a walk to Eagle Rock, workshops, and a rally with citizens from Michigan, Wisconsin, Minnesota and Ontario. You can stop metallic sulfide and uranium mining, and you can start by showing up! Hope to see you there!

A Special thanks to the Western Mining Action Network, Indigenous Environmental Network & Our Local Supporters.  
Sponsored by Yellow Dog Summer, Keepers of the Water, and Students Against Sulfide Mining

The drum is being faintly heard in the distance. It is the heartbeat of Maamaa Aki (Mother Earth). She is waiting for us to stand up for her and the water that sustains all life.

It is up to the people to sound the drumbeat louder.
